GENERAL INFORMATION

The purpose of this bulletin is to give general information concerning the summer session. For full information concerning courses and regulations, one should consult the general University bulletin.

The University is located at DeLand, Volusia County, Florida, about one hundred miles south of Jacksonville, and twenty-three miles from Daytona Beach. It may be reached by the Atlantic Coast Line Railway and the Florida Greyhound Lines. The mild, pleasant climate attracts students from all parts of the nation. Students who are unable, because of poor health, to attend college in the North find that they may here pursue their studies regularly and at the same time improve in health. Because of the climate and high standards of the University many northern families have established homes here.

The University campus of forty-three acres is situated on high land in the northern part of DeLand, a half mile from the center of town. The University is housed in twenty-three buildings as follows: Elizabeth Hall, Science Hall, DeLand Hall and Annex, the School of Business, Holmes Hall, the Library, the Irving C. Stover Little Theatre, the Religious Center Building, the Hulley Chimes Tower, the Commons Building, the Band Hall, the University Post Office and Campus Soda Shop, the Central Heating Plant, the Cummings Gymnasium for Women, the Hulley Gymnasium for Men, the President's Home, Conrad Hall, Stetson Hall, Chaudoin Hall, Stevens Hall, Brittain Hall, and Hon Hall.

The University has acquired title to part of the property at the former DeLand Naval Air Station consisting of two residences, two dormitories for men, a building which houses the College of Law, and a recreation building, together with about seventy-five acres. Buses obtained from the Federal Government provide transportation between the two units of the University.

The value of these buildings and grounds, and their equipment is more than two million dollars. This does not include the productive endowment. The University owns an endowed library,

the Sampson Library, which contains approximately forty-six thousand volumes and four hundred periodicals; also, a separate law library of 17,500 volumes and a library of music together with records for all departments of the School of Music. The University has an attractive chapel with a beautifully-toned pipe organ, a comprehensive and well-arranged museum, ten laboratory rooms for chemistry, physics, biology, and general science, a large assortment of costly appliances, well-equipped iron shops, indoor gymnasium apparatus, enclosed athletic field, tennis courts, baseball diamond and football gridiron, and has nearby facilities for golf, swimming, rowing, horseback riding, and other sports. The tennis courts to the rear of Cummings gymnasium are the anonymous gift of a loyal friend of the University who lives in DeLand.

The University Commons has an attractively furnished lounge, two cafeterias, a grill room, kitchen and storehouse. The building is used constantly for committee meetings and social gatherings. Meals for special occasions and party refreshments may be had at the Commons upon advance notice. All meals are prepared by an experienced chef under the supervision of a trained dietitian. Only the best materials are purchased, and meals are prepared under the most sanitary conditions, thus assuring substantial, wholesome and appetizing food.

The Infirmary service of the University, under the direction of competent graduate nurses, provides for the care of all minor illnesses and the relief of acute conditions which do not require special nursing. Supplementary to the services afforded by the University infirmary, a student may at his own expense secure any available physician he desires. In the event of serious illness, the University always notifies students' parents at once.

The Stetson Bookstore is owned and operated by the University. It handles textbooks and supplies needed by the students.

ADMISSION

Persons who are planning to enter Stetson for the first time this summer, including those from other institutions, should send a transcript of their credits to the Director of Admissions as soon as possible and make the necessary application for admission. Blanks for this purpose may be secured from the Director of Ad-

missions. An applicant who has been in attendance at an accredited college must be eligible to return to the college or university last attended and must have maintained a satisfactory academic record.

An applicant for admission to the freshman class must be a graduate of an accredited secondary school with a minimum of fifteen units of credit, three of which must be English. The student should ask his high school principal to send a transcript of his credits to the Director of Admissions.

Applicants who have graduated from a non-accredited secondary school or who cannot establish entrance credits may be admitted by examination. Entrance examinations will be given immediately before the opening of each academic quarter.

For further information write to the *Director of Admissions*.

ROOMING FACILITIES

Excellent rooming facilities are provided by the University for all students who wish such accommodations. A deposit of \$10.00 is required to reserve a room. Students who live in dormitories will need sheets (single), towels, pillowcases and any articles with which they may wish to make their rooms attractive.

All unmarried undergraduates are required to live in the college dormitories or in facilities approved by the University.

DEGREE REQUIREMENTS

The University offers courses leading to the degrees of Bachelor of Arts, Bachelor of Laws, Bachelor of Science, Bachelor of Music, Master of Arts and Master of Science. Students taking work toward college degrees should familiarize themselves with the degree requirements of the University. Those with two or more years of college credit should have credit sheets checked by the Registrar before the beginning of the term.

A minimum of thirty-six majors is required for the A.B. or B.S. degrees, twelve of which must be of junior-senior rank. The Dean of the School of Music, or the general University bulletin should be consulted by those planning to work toward the B.M. degree. In addition to specific requirements in the major field,

certain courses are required of all regular students at the University. They are as follows:

English	two majors
Religion	one major
Physical Education	two years

A full year of residence is required for graduation.

An average of C (1.0 quality point average) and a minimum of 36 quality points are required for graduation.

DIVISIONS IN THE COLLEGE OF LIBERAL ARTS

I. *The Humanities*—Subjects relating to the expression and communication of ideals and values. (Art, Drama and Speech, English, French, German, Greek, Latin, Music, Philosophy, Religion, Spanish)

II. *The Natural Sciences*—Subjects relating to the physical world. (Biology, Chemistry, Engineering, Mathematics, Physics)

III. *The Social Sciences*—Subjects dealing with man in his social relations. (Economics, Geography, History, Journalism, Political Science, Sociology)

IV. *Education*—Subjects dealing with the institutions, objectives and processes of public education. (Teacher Education, Health and Physical Education, Psychology, Guidance)

EXPENSES

The University operates on the quarter plan. The rates given below are for the summer quarter.*

I. General Expenses:

1. Matriculation Fee \$ 5.00
(Charged new students, but payable only once)
2. Rooms:
 - Group I (per week) \$ 3.00
 - Group II (per week) 3.50
 - Group III (per week) 4.50
 - Group IV (per week) 6.00
3. Meals (Cafeteria Plan)

* In view of the prevailing uncertainty as to cost of labor and material the University reserves the right to change its charges for room and board at the beginning of any quarter, but will give its patrons advance notice of any such contemplated change.

4. Tuition:	
Three to four majors	\$100.00
Two majors	75.00
One major	40.00
One major (auditors)	40.00

II. Special Fees:

1. Art courses, fee per course	\$ 5.00
2. Laboratory fee	5.00
3. Typing fee	5.00
4. Room breakage fee	10.00
(Refundable on graduation or on permanent withdrawal)	
5. Graduation fee	10.00
6. Secretarial Science Certificate	5.00
7. Course changes	1.00
8. Special examinations	5.00
9. Transcript of record	1.00
10. Late registration	5.00
(Registration after class begins involves additional administrative work and seriously affects the work of the student. An additional fee of \$1.00 per day will be charged for each day registration is delayed. The maximum delay charge for any quarter is \$5.00.)	

III. Music Expenses:

1. Piano fee	\$ 6.00
2. Pipe Organ fee:	
Chapel Organ, one hour daily	\$ 12.00
Hammond Organ, one hour daily	7.00
DeLand Hall Organ, one hour daily	6.00
3. Orchestral Instrument fees, one hour daily	\$ 3.50

The University has its own bookstore, which is operated on a strictly cash basis. Parents must not expect the University to charge textbooks on regular bills. In case such an arrangement is desired, it is suggested that a deposit of \$20.00 be made with the Bursar. An itemized statement of each book account will be rendered as soon as possible after the opening of each quarter.

The University must be able to anticipate its income and its disbursements just as any other business. It is, therefore, necessary

that the University consider registration for class work and reservation in a dormitory as a contractual obligation. There will be no refund on tuition after the last day for change of registration, Monday, June 26. After one week of dormitory residence, no refund can be allowed. When the refund is allowable, fifty per cent of the charge will be returned.

REQUIREMENTS FOR THE MASTER'S DEGREE

1. All graduate work in John B. Stetson University is under the general supervision of the Graduate Council.
2. A Bachelor of Arts or a Bachelor of Science degree from Stetson or an equivalent degree from some other accredited institution is a prerequisite. All applications for graduate study will be reviewed by the Graduate Council, and recommendations will be sent from the Council to the University Committee on Admissions.
3. The Graduate Record Examination is required of each graduate student at John B. Stetson University. It may be taken during the first academic session in residence, if the student has not completed it before entrance.
4. The normal load for a graduate student is considered to be two or three courses. No more than three courses will be allowed. No Saturday or night class student will be allowed to take more than three semester hours of graduate work, or its equivalent, in any one semester.
5. Each candidate for the Master's degree at John B. Stetson University must complete nine majors. The writing of a thesis will satisfy the requirement of one major. If the student elects not to write a thesis, he must present two research papers of a quality approved by the Graduate Council. Under no circumstances will the Master's degree be awarded without a full year spent in residence.
6. A reading knowledge of at least one modern foreign language is strongly recommended as a prerequisite, and may be required at the option of the department in which the student majors. Any student who plans to do additional graduate work should by no means fail to attain a reading knowledge of at least one foreign language.
7. At the beginning of his graduate study for the Master's degree, the candidate must have his program of courses approved by the Chairman of the Graduate Council and the heads of the departments in which he plans to study. Courses which may be counted toward the Master's degree must be preceded by five majors of undergraduate work in the major subject, two of which must be of junior-senior rank. Adequate preparation will be demanded in the minor subject.*

* Students presenting courses in Education as foundation work for graduate study may not offer more than one major of internship.

8. Admission to graduate study does not imply admission to candidacy for a degree. A student is admitted to candidacy for the Master's degree on the following grounds only: 1. Completion of one quarter of graduate study in Stetson. 2. Written recommendation of the candidate's major professor. 3. Approval of the Chairman of the Graduate Council.
9. The courses offered for a Master's degree ordinarily must be selected from two departments and must form a consistent plan of work, not fewer than five majors to be in the major subject and not fewer than two in the minor subject. However, when not more than five majors are taken in the major subject, the other four majors may be grouped advantageously around two centers of interest, constituting an associated minor and an independent minor.
10. Grades for graduate students will be H, Honors; P, Passing; or U, Unsatisfactory. The Honors grade will be given only in exceptional cases to denote outstanding work. The Passing grade will denote entirely acceptable work, and will be equivalent to the undergraduate A and B grades. The Unsatisfactory grade will denote failure.
11. All the work for the Master's degree should, if possible, be done within a period of two years, and all of it must be done within a period of six years. No additional credit will be given for any graduate work beyond that required for the Master's degree.
12. The candidate who elects the thesis to satisfy the requirement of one major must submit three copies of his thesis, bound in form approved by the Graduate Council: one copy is to be retained by the candidate, one to be presented to the professor who has directed the candidate's research, and one to be deposited in the University Library. The thesis must be in final form and ready for binding not later than the date given in the University Calendar for the approval of Masters' theses preceding the Commencement at which the degree is to be conferred.
13. Two majors, or the equivalent, of graduate work done in other colleges and universities will be credited toward the nine majors required for the Master's degree on the following conditions: 1. Written approval of the candidate's major professor. 2. Approval of the Chairman of the Graduate Council. 3. The understanding that the acceptance of such credits shall not reduce the one full year of study in residence required for the Master's degree.
14. The Graduate Council defines a year of residence to mean three quarters spent on campus, regardless of the amount of work taken. Saturday and evening sessions will be credited as one-half a quarter of residence each. All students must spend at least one regular quarter in residence.

15. After the completion of the courses and the thesis required for the degree, the candidate must take an oral examination covering the fields of his graduate study, conducted by a committee representing the Graduate Council, the departments in which graduate work has been taken, and one other department in the University. Preliminary to this oral examination, a comprehensive written examination in the student's major subject may, at the option of the head of the department, be required.
16. Each candidate for the Master's degree must prepare a typewritten brief of his courses together with an abstract of his thesis and file six copies of each with the Chairman of the Graduate Council three weeks before the time set for the comprehensive oral examination.

COLLEGE OF LIBERAL ARTS AND SCHOOL OF BUSINESS

COURSES OF INSTRUCTION

The number of courses announced herewith is limited, but the University will endeavor to arrange for other courses for which there is sufficient demand. No classes will be organized with fewer than twelve students.

Courses in the 100 and 200 series are usually open only to freshmen and sophomores. Courses in the 300 and 400 series are usually open only to juniors and seniors. Graduate students should consult Dr. Wm. Hugh McEniry, Chairman of the Graduate Council, for approval of courses for graduate credit.

The normal load for a student is three courses. Students with a B average may take four courses provided approval is granted by the student's faculty adviser and the Dean of the College of Liberal Arts. Classes meet every day, five days each week.

Each course counts as one major of credit unless otherwise noted. A major is equivalent to three and one-third semester hours.

For full description of courses see the general catalogue.

Courses listed in the following schedule are tentative, and no student should plan his summer's work without consulting the summer session schedule which will be printed in May.
